

Daniel Durant

Full-Stack Software Developer

dannyjdurant@gmail.com | Junction City, KS | [LinkedIn](#) | [Portfolio Website](#) | [GitHub](#)

Summary

Full-Stack Software Developer with 2+ years of experience building web applications, APIs, and data systems for e-commerce and AI/ML environments. Known for turning messy, manual workflows into fast, reliable full-stack products through automation, clean data pipelines, and scalable cloud architecture. Delivered measurable results including improved system performance, reduced review time, and 95% accurate AI document extraction in production settings.

Skills

Languages: Python · JavaScript · C# · SQL · HTML5 · CSS3

Frameworks/Libraries: React · Blazor · Bootstrap · Node.js · .NET · Flask · Unittest

Databases: MySQL · PostgreSQL · NoSQL · Snowflake

Tools & Platforms: Git · GitHub · Google Cloud Platform · Hugging Face · Figma

Concepts: Data Structures · Algorithms · RESTful APIs · Responsive Design · Microservices · CI/CD

Work Experience

Full-Stack Software Developer Intern: Kangaroos AI | Remote

Mar 2025 – June 2025

- Engineered secure, scalable cloud data infrastructure on GCP/Firebase with 98% uptime.
- Improved system performance by 25%, resulting in a 20% rise in operational efficiency.
- Created an AI document extraction platform with 95% accuracy, ensuring high-quality model inputs.
- Deployed an AI grading system that reduced manual review time by 40%.
- Collaborated with design and engineering teams to define data structures and improve system architecture.

Full-Stack Software Developer Intern: Real Men Apparel | Remote

Nov 2024 – Present

- Refactored database extraction and rewriting processes, improving performance by 75%.
- Integrated e-commerce APIs and reduced data discrepancies by 40%+ through improved validation and monitoring.
- Built automated workflows using structured data inputs, increasing operational efficiency by 80%.
- Analyzed code and resolved data-related errors to improve output quality.
- Facilitated weekly live coding sessions, translating technical concepts for non-technical teammates.

Branch Manager / Website Administrator: Agri Trails Coop | Pearl, KS

Jan 2020 – Present

- Led digital marketing campaigns with partners, driving higher website traffic and user engagement.
- Analyzed website performance data to identify engagement trends and optimize content strategy.
- Updated and maintained website content to ensure accuracy, clarity, and alignment with organizational goals.
- Resolved website access issues and restored missing or broken content for staff and customers.
- Created structured digital content (text, graphics, audio, video, animations) to strengthen engagement.

Education

Coding Temple, Certificate — Full-Stack Software Engineering (Advanced Back-End Focus)

Feb 2024 – Oct 2024
